Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Schipper on 03/21/03.

2. The application has been amended as follows:

Regarding claim 1 last two lines, please replace the last two lines to

--an alarm coupled to said electrical current sensor, that generates a selected alarm signal when the switch is not in the first switch state, upon the sensed level of current in said current sensor.—

Regarding claim 12 last two lines, please replace the last two lines to

--coupling an alarm to said electrical current sensor;
generating a selected alarm signal by said alarm when the switch is not in the first switch state, upon the sensed level of current in said current sensor.—

3. The following is an examiner's statement of reasons for allowance:

There is no prior art shows the claimed system for detecting unauthorized movement of a communications/meter device, the system comprising:

At least one device attachment mechanism, having a selected attachment direction, that attaches a communications/meter device to a selected attachment site;

A magnetic field source, associated with the attachment mechanism, that provides a first magnetic field within a first field direction and a second magnetic field with a second magnetic field direction when the attachment mechanism is in a first selected position and in a second selected position, respectively;

A field-activated magnetic switch, positioned adjacent to the attachment mechanism and arranged so that, when the first magnetic field is applied to the switch, the switch is in a first switch state, and when the second magnetic field is applied to the switch, the switch is in a second switch state, distinct from the first switch state;

An electrical current source, connected to the field-activated magnetic switch at a first selected location, that provides a current through said switch;

An electrical current sensor, connected to the field-activated magnetic switch at a second selected location, that senses a level of current through the switch; and

An alarm is coupled to said current sensor, that generates a selected alarm signal when the switch is not in the first switch state, upon the sensed level of current in the current sensor.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
